#### Safety isolating transformer FLD 48/9 Discontinued line - not for new designs

### Advantages

Minimum size at high output

#### Low height

Integrated overload protection using PTC in the input

Double input voltage for series or parallel connection

Double output voltage for series or parallel connection

Permanent corrosion protection, high insulation value and maximum electrical reliability thanks to XtraDenseFill resin encapsulation

Self-extinguishing potting material

#### Applications

As a safety isolating transformer for the safe electrical isolation of the input and output sides. The transformer is suitable for creating SELV and PELV circuits because of the limit on the output voltage.

## Sample application

$\sim \not $	$\neg \frown \circ$
PRI1 HO	} SEC 1
· · ·	منعك
$-\underline{\nabla}$	$\sim$
PRI2 #0	} { SEC 2
•	

### Standards

Safety isolating transformer to: VDE 0570 Part 2-6, DIN EN 61558-2-6, EN 61558-2-6, IEC 61558-2-6
